Idaho Library Association 1995 State Legislative Priorities

"Idaho Libraries exist for the public good. They promote reading and literacy, contribute to higher productivity of individuals and society, and are a basic element of a democratic society.

"In our vision of the future, a library is a dynamic entity with the mission of connecting people with the information that they want or need. Local, state, and federal goverments share the responsibility for funding library services, thereby contributin to a more responsible citizenry and a better quality of life for the individual. Because of broad-based government support, libraries are gateways to sources of information beyond their walls, and their resources are readily shared across jurisdictional boundaries.

"In all parts of our vast and diverse state, Idaho's citizens rely upon their libraries to further their education, to enhance their skills in the workplace, to fully function in today's global society, and to enrich and enjoy their daily lives." (From the "Vision of Idaho Libraries.")

The following actions are requested from state government to support basic information needs of Idaho citizens.

1. Fund the Library Improvement Account.

The State of Idaho has the responsibility to provide public library services to its people in both the urban and rural areas of the state. (I.C. 33-2513).

Funding the Library Improvement Account through the Idaho State Library budget request at $750,000 ($.68 for each Idahoan) would allow Idaho public libraries to improve and share their public library collections and provide incentives for countywide library use.

2. Support legislation enabling technical changes to existing library laws.

Now that the library community has had a chance to use these laws, some minor changes need to be made.

3. Support funding for the State Library budget to continue existing programs at a proactive level.

Programs crucial to the Idaho library community are funded through the State Library's annual budget. The Idaho State Talking Book Library, Interlibrary Loan Program and consulting services all impact the quality of all libraries and provide direct services to many of the state's citizens.

4. Vote against legislation that censors or limits Idaho citizens' access to information available through Idaho libraries.

For more information, please contact Adrien Taylor, ILA Legislative Committee Co-Chair, (208) 385-1621, or Ann Joslin, Idaho State Library Associate Director for Development, (208) 334-2153
